

Virtual Business Deposits

DEPOSIT CHECKS ELECTRONICALLY TO YOUR CREDIT UNION ACCOUNT

Time is Money. Get More of Both.

Your business accepts checks from customers, and you know it's important to deposit those checks as soon as possible.

The quicker the checks clear, the faster those funds are working for you...and the smaller the exposure your business has to potential fraud. However, making a deposit run to the credit union during business hours isn't always possible.

With **Virtual Business Deposits** from your credit union, you can deposit your business checks electronically, as soon as you receive them!

Business Benefits

- Minimize trips to the credit union.
- Eliminate missed deposit deadlines for same-day credit that result from traffic or other business-day delays.
- Increase business productivity, while reducing deposit preparation – no more deposit slips.
- Add convenience by consolidating all deposit activity with your credit union.
- Spend more time on your business, not waiting in line at the drive-thru or in the lobby.

Virtual Business Deposits – Easy, Fast, Safe

It's easy to set up Virtual Business Deposits. It's even easier to use!

HERE'S HOW IT WORKS:

- The credit union provides your business a brief "how to" guide.
- Your business installs a check scanner (ordered online).
- The credit union assigns your business and its designated users access to the system.
- Your business uses a 3-step process to deposit to the credit union: scan check, verify amount, accept deposit.
- Deposited check images and reports are available for you to view online the same day.

Get Started

Accelerate your business deposits with this convenient, Internet-based deposit service from your credit union. Ask your credit union about Virtual Business Deposits today!
